The icon in the task bar does NOT respond to any clicks, left or right Tried bringing it up from 'All Programs' -- just got a message that it was already running, but I can't get to it!Download PCHand Screen Recorder for free.. It shouldn't be that un-accessible, NONE of any other screen captures work were you couldn't access them.. I'm thinking that I may be able to get to it when I re-boot, so I MIGHT give it another try whenever I decided to re-boot, but all of this should really be unnecessary.
